

Orders: Palliative Care Management Adult PowerPlan

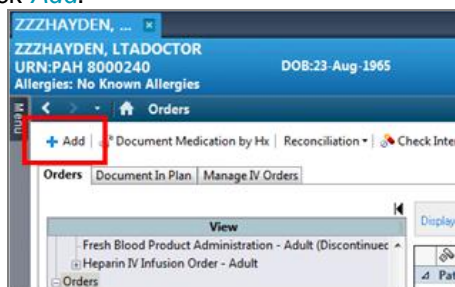

Quick Reference Guide

PowerPlan Orders can be completed from *Doctor View* or *Orders* in the patient's EMR.

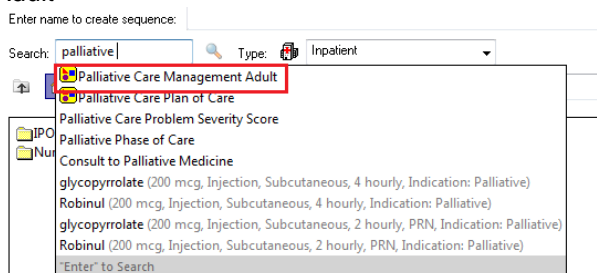

The *Palliative Care Management Adult* PowerPlan is a set of activities, patient care and medication orders.

Ordering a PowerPlan

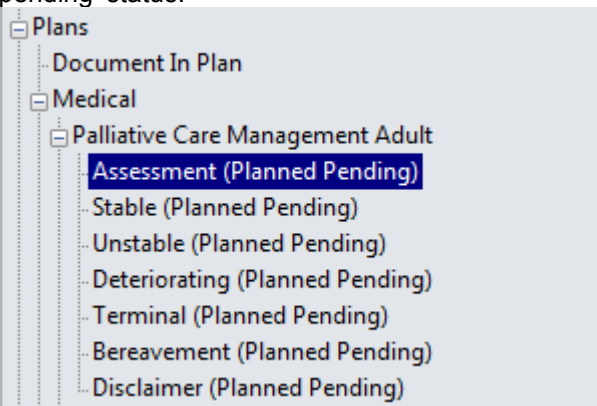

1. Navigate to the *Order Profile* screen from the *Menu*.
2. Click *Add*.

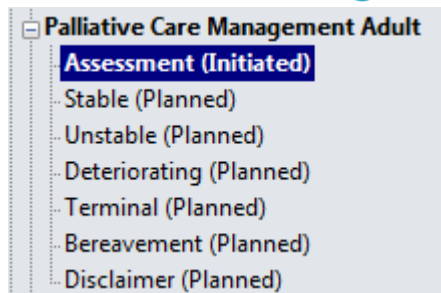

3. Type the Power Plan name or part of it in the *Search* field.
A list of order sentences will display.
4. From the results displayed, select the relevant power plan e.g. Palliative Care Management Adult

5. The PowerPlan will display under the medical plans section of the orders page in a 'planned pending' status.

6. Select the *Assessment* phase of the PowerPlan. The orders available in this phase will display.
7. Click *Initiate*.
8. Click *Orders of Signature* and *Sign*.
9. *Refresh* the screen.

10. As per your assessment of the patient, select the appropriate phase of the PowerPlan, eg. Stable.
11. Review the orders in the selected phase and modify as clinically appropriate.

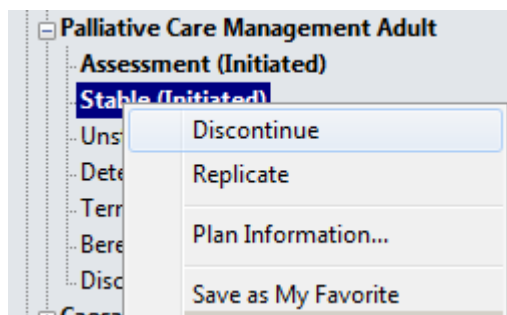

In *PowerPlans* the default orders or interventions are indicated by tick boxes that can be un-selected and new orders/interventions can be added.

12. Add other interventions or orders as requested by clicking *+ Add to phase*.
13. Click *Initiate*.
14. Click *Orders of Signature* and *Sign*.
15. *Refresh* the screen.

Changing a Phase

As the patient's condition changes, the Palliative Care Management Adult PowerPlan will need to be modified.

1. Right click on the initiated phase and select *Discontinue*.

2. The Discontinue window will open, select *OK*.
3. Click *Initiate*.
4. Click *Orders of Signature* and *Sign*.
5. *Refresh* the screen.
6. As per your assessment of the patient, select the appropriate phase of the PowerPlan, eg. Unstable.
7. Review the orders in the selected phase and modify as clinically appropriate.
8. Click *Initiate*.

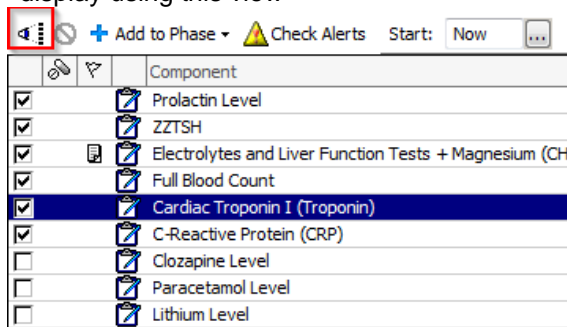

To re-use a discontinued phase of a PowerPlan, right click on the discontinued phase and select *Replicate*. The replicated phase is then available to re-use.

9. Click *Orders of Signature* and *Sign*.
10. *Refresh* the screen.

Merge View

16. Click Merge View icon  to see all *active orders* for the patient to check if duplicated. Orders that have been completed or discontinued will not display using this view

17. Manually check for duplicates and un-select duplicate orders.
